

Crop Production Analysis Journey

SCENARIO Browsing, entering data, analyzing, and acting on crop production insights through a growing season	Entice How does someone initially become aware of this process?	Enter What do people experience as they begin the process?			Engage In the core moments in the process, what happens?						Exit What do people typically experience as the process finishes?				Extend What happens after the experience is over?		
Steps What does the person (or group) typically experience?	Hears about the crop app from agri officer	Downloads the app / visits web portal	Selects farm location & crop type	Views sample production insights	Enters field data (soil, seed, area)	Views weather & soil recommendations	Receives crop health alerts	Analyzes yield prediction dashboard	Compares market price trends	Consults agronomist via chat	Implements recommended practices	Harvests the crop	Records actual yield data	Receives season summary report	Gets personalized tips for next season	Refers app to other farmers	Tracks multi-season yield trends
Interactions What interactions do they have at each step along the way?	Agri extension officer, village meeting	Mobile app / website home screen	Farm profile setup screen in app	Sample dashboard within the app	Data entry form within the app	Weather & soil-advisory screen	Push notification / SMS alert	Yield prediction dashboard	Market price trend screen	In-app chat with agronomist	Field, using recommended inputs	Field, at harvest time	Yield data entry form in app	Season report (app / email)	Personalized tips screen / email	Referral / share feature in app	Multi-season analytics dashboard
Goals & motivations At each step, what is a person's primary goal or motivation?	Help me learn how this can help my farm	Help me get started quickly	Help me avoid irrelevant information	Help me see what this app can do	Help me enter my data without hassle	Help me know what to do next on my field	Help me act before it's too late	Help me predict my yield accurately	Help me decide when to sell	Help me get expert advice quickly	Help me apply advice correctly	Help me harvest at the right time	Help me track my actual results	Help me understand how my season went	Help me improve next season	Help me share what worked for me	Help me see my progress over time
Positive moments What steps does a typical person find enjoyable or motivating?	Excited to hear a free tool can help		Simple, quick setup process	Impressed by clear, visual insights		Feels reassured by clear guidance	Appreciates timely alerts	Finds yield prediction motivating		Values quick access to expert advice		Satisfied with timely harvest guidance		Proud to see a clear season summary	Feels supported for next season	Happy to help fellow farmers	Motivated by visible improvement
Negative moments What steps does a typical person find frustrating or confusing?		Confused by app download / login steps	Frustrated by too many fields to fill		Finds manual data entry tedious		Alerts sometimes arrive too late	Distrusts prediction accuracy at first	Market data feels outdated	Limited network connectivity in fields	Unsure how to apply advice exactly		Forgets to log actual yield data				
Areas of opportunity How might we make each step better?	Partner with more local agri officers	Simplify onboarding with voice/local language	Auto-detect farm location via GPS		Allow data entry via photo or voice input		Send alerts via offline SMS fallback	Show confidence score with each prediction	Refresh market data more frequently	Enable offline chat message queue	Add step-by-step visual how-to guides		Send gentle reminders to log yield	Add year-on-year comparison view	Tailor tips to local soil & climate data	Add simple referral rewards	Add badges for consistent good practices
